ABOUT ME

As a 4th year Computer Engineering student at Gazi University, I am a solution-oriented software developer with a passion for web technologies. I am experienced in technologies such as Spring Boot, Golang and React. I aim to produce scalable and efficient solutions. I focus on continuous learning and self-improvement.

SKILLS

- Spring Boot
- Golang
- React
- Tailwind CSS
- PostgreSQL
- Open Source

WORK EXPERIENCE

BACKEND DEVELOPER INTERN

Sigun Bilgi Teknolojileri ve Danışmanlık A.Ş.

- I developed RESTful APIs using Spring Boot and PostgreSQL and made improvements to improve the performance of existing systems. I researched JWT-based authentication processes and integrated them into applications.

BACKEND DEVELOPER INTERN

HAVELSAN A.Ş.

- I worked with Golang in an open source project that monitors Linux and Windows machines on the network. In the project, I made improvements on Golang, PostgreSQL and Linux based systems. I made various optimisations for monitoring and managing the systems.
